Lines

Changed boxes to Japanese Sumo flag. It makes more sense and more clear compare with previous concept(save mochi from bad sumo mochi).

Each flag represent an individual Sumo fight which you will need to win and get the cute mochi as a price.

So, logically if the player fail the level the flag will still be there.

Green Tea

Strawberry

Changed position of Mochi name.
Only visable after completed this level with cute mochi.

Some appear animation for new mochi (only for latest completed level):

bobling up and down effect like we discussed during the call.
